WHEELING, JUNE 29, 1894.

FIRST DISTRICT
—Congressional Convention!—

A convention of the First Congressional District Republicans will be held in the city of New Martinsville, W. Va., on Wednesday, August 1, next, to nominate a candidate for Congress for said district to be voted for at the election to be held in November next, and to transact such other business as may come before the convention.

Chairman: J. C. STATHERS.
 Vice: J. C. STATHERS.
 Secretary: J. C. STATHERS.

READERS of the Daily Intelligencer leaving town can have the paper sent to any address in the United States, per post, for three months, \$2.00; for one month, 65 cents; for two weeks, 30 cents. Address changed as often as desired.

Mr. Atkinson Withdraws.
 For reasons given in a massy letter to the Intelligencer, Hon. G. W. Atkinson withdraws from the contest for the Republican nomination for Congress in the First district. He bows to the decision of his party in his own county rather than carry the contest into the convention, whither his devoted supporters were ready to follow him.

It was his honorable ambition to be the Republican standard bearer at a time when his nomination would have meant his seat beyond question. This ambition he lays aside in the interest of party harmony as a requisite of party success.

The withdrawal is accompanied with a pledge, not necessary to those who know the sturdy, unfaltering loyalty of the man, that the nominee shall have his cordial support from start to finish. If every Republican in the district will exert himself as G. W. Atkinson will, the First district will give the Republican nominee a majority too big to be scratched out or counted out.

This act of Mr. Atkinson's, and the good nature and sincerity which accompany it, will add new friends to the host who appreciate his sterling worth and long and efficient party service. Only a big man is capable of doing what Mr. Atkinson has done in the generous way in which he has chosen to do it.

TANNEY, Colorado's adjutant general, may be said to have had that tarred feeling.

A Duty and an Opportunity.
 Delegates to the Ohio county convention were elected to make the wisest choice of nominees. They were not publicly known to be running in the interest of any aspirant or aspirants.

Delegates to the congressional convention ran as Devenor and Atkinson men and were so elected or defeated.

There was an issue and everybody understood it. Not so with delegates to the county convention. The only issue was to send to the county convention men who would repay their party's confidence by supporting for nomination the best and strongest men who could be induced to run.

If anybody secretly ran men in his own interest he took an unfair and unworthy advantage of his fellow Republicans, upon whom he would have to rely for election in the event of his nomination. Snap games are not a recommendation to the favor of Republicans interested first of all in the party's success and the public welfare.

The county convention is made up of men whom the party has trusted to look over the field, to confer with each other and with other Republicans, and to make such selections as shall give the fairest promise of success. The party does not owe a nomination to anybody. The convention owes to the party and the people the best nominations it can make.

If it shall avail itself of the best men whose services can be commanded at this time, every member of that convention will have the proud satisfaction of knowing that he helped to start a good ticket on the way to victory. This is an honorable goal worth striving for.

PRESIDENT CANNON was a comparatively young man and President Casimir-Périer is forty-seven. France is not afraid to trust herself to young men.

Pennsylvania Democrats.
 It would be difficult to find a more useless person this year, politically speaking, than a Pennsylvania Democrat. Yet the party met in convention and in a perfunctory manner nominated a state ticket. They did more. They had the temerity to formulate a platform of eleven planks. And more incomprehensible still, they reaffirm the Chicago platform, as though there was a chip of that barren ideal left.

Naturally, but illogically, it blames the present derangement of business

on the operations of the McKinley bill. Nothing could be wider of the mark. All the business disturbances and widespread financial distress that have come upon the country are traceable to the Wilson bill. With this monstrous hanging over their heads the business and manufacturing interests began to trim their sails for free trade, and thus it was at the very height of an unexampled prosperity a blow was struck by a Congress overwhelmingly Democratic.

If the people had not been misled by the ridiculous promises of an incompetent party in 1892, and had returned a Republican house of representatives, even if they had been disposed to be shy on the presidency, which would have insured the continued operations of the McKinley bill, there would have been no disasters. There would have been no want where before was plenty, no wall of distress where before had been heard the song of contentment. As for the present "reform" Congress it might as well have been playing tiddle do winks as legislating for the alleviation of a suffering people.

In the light of Grover's overwhelming majority, the eloquent returns from the elections in Ohio, New York, Oregon and other states, the Pennsylvania Democracy goes on stumbling in the party rut, and they will go on groping their way until they fall in the November ditch, to rise no more forever.

Those Kentucky women who are sending bouquets to Col. "Disgraced" Breckinridge are woefully lacking in true womanhood.

Mr. Comstock's Mistake.
 Rather a remarkable case has just been decided by a New York judge who was called to rule upon the alleged obscenity of Fielding's novel "Tom Jones." An assignee had advertised the work at public sale when Anthony Comstock pounced upon him and warned him that he would confiscate the entire stock if he did so. The assignee appealed to the court and Mr. Comstock was squelched.

The vigilant president of the society for the suppression of vice has done good work in his line, but in this case he went to an extreme which borders on the silliest prudery. That an old English classic should be prohibited in this day is rather remarkable. In its way "Tom Jones" teaches a lesson, and a good lesson, and shows up the hideousness of hypocrisy. Mr. Comstock's squeamishness smacks too much of that self-righteousness that bears its own condemnation. On the same lines on which he reasons the Old Testament would be under the ban. There are many books, the product of modern fatigued idealism, that Mr. Comstock could apply his censorship to with profit to the public morality.

No heathen minded person will ever be injuriously affected by reading "Tom Jones," unless his mind is already corrupt.

The Pennsylvania Populists are a queer lot. They have a plank in their platform demanding the enactment of a law declaring eight hours a legal day's work, "except in domestic and agricultural affairs." So the maid and the man on the farm must work from sun up till the cows come home? And this from a party opposed to all monopolies. It would appear that the sauce for the mill man would be equally appetizing for the farm hand.

It might be thought that the national convention of the Republican league, held in Denver, was of sufficient importance to occupy a line or two in the Register, or in any other publication professing to be a newspaper. The Associated Press sent an excellent report of about two columns, but the Register had no use for any of it. This is partisan journalism run mad.

FRANKLIN MACVEIGH, of Chicago, nominated by the Illinois Democrats for United States senator, is an out-and-out free trader and the brother of Wayne MacVeigh, of Pennsylvania, the Mugwump whom President Cleveland sent as minister to Italy. Mr. MacVeigh is a business man with a "bawl."

ANENT the assassination of Carnot that vile imitation of a human being, Herr Most, has opened his mouth to warn reporters and editors that the knife has already been sharpened for them. While this is all bluster on the part of this cowardly scoundrel it is time to put the padlock on all of his claims.

Mr. PERVE has resigned, not the hirsute senator from Kansas, but the second baseman of the Louisville ball club. If the opening of the sentence gave you a shock the compensations of a real surprise this hot weather are then worth one hundred cents on the dollar.

It seems to trouble the bifurcated brain of the editor of the Fairmont Index that Mr. Dorr has allied himself with the Republican party. There will be "a heap more trubbel on de old man's mind" before the elections are over.

It seems that the Democrats of Pennsylvania are going to run Mr. Singler for governor as a farmer, not as a newspaper man. This will let newspaperdom down gently. It is the farmer who will be beaten out of sight.

Now that the guards have been doubled to protect President Cleveland will some kind soul furnish him with an adequate liver pad? That organ is more of a menace to him than the knife.

The Pittsburgh Post says its party has nominated a good ticket in Pennsylvania, but refrains from predicting its election. This self-restraint is very commendable.

WEATHER prophets who are predicting hot weather for July might as well fill in a few sky-records for the Fourth, if they insist on being so exact.

LOYAL ATKINSON

Withdraws from the First District Republican Contest for Congress.

FOR HARMONY AND SUCCESS.

Mr. Atkinson Yields Gracefully to the Will of His Party in His County. The Nominee Will Have the Cordial Support of Him and His Friends. "A United Party Will Elect the Nominee."

To the Editor of the Intelligencer.

Sir:—It is well known that a few weeks ago I entered the field as a friendly contestant for the Republican congressional nomination in this district. It is also well known that from the beginning of my candidacy I gave it out, and meant it, that I would cheerfully and heartily support the nominee of the convention, whether such nominee was my principal competitor, Captain Devenor, or Major Moore, Mr. Hardman or any other Republican. It is true my canvass became somewhat split in some localities; but my friends were instructed to keep within due bounds, and to do and say nothing that would in any way injure any other Republican who might be nominated.

I very much regret to find that no little bitterness has grown out of the campaign, notably in Ohio and Lewis counties, which, if not disposed of promptly, will necessarily militate against party success in November. This fact, coupled with the result of the Ohio county primary, at which nearly the full vote of the party was polled, giving to my competitor, Capt. R. B. Devenor, a decisive majority, and desiring above everything else the election of a Republican from this district to the Fifty-fourth Congress, I have decided to quietly withdraw from the campaign for the nomination, in the interest of party harmony and party success.

In taking this course, I am actuated by a desire to hold the Republican party in this district intact, that there may be no question as to the election of the nominee, whoever he may be. In thus withdrawing, I wish to express, in this public manner, my sincere thanks to my devoted friends who have so honorably stood by me, with Spartan bravery, from the day I announced myself a candidate to the present hour. Some of them may differ from me as to the propriety of my withdrawing; but inasmuch as the main object of all true Republicans is to encourage harmony in our ranks, which alone will lead to success, I am sure they will commend me for the course I have taken to bring about both of these desired ends, even though I necessarily must sacrifice my own personal ambitions.

Ohio county has pronounced for Captain Devenor, and as a loyal party man I yield to the will of the majority, and will cheerfully support him, or any other Republican who may be chosen by the convention. A united party will elect our nominee; but every Republican must put his shoulder to the wheel in order to make success a certainty.

Very Respectfully, G. W. ATKINSON.

Wheeling, W. Va., June 23, 1894.

"JOCKEYING THE TESTS."

Superintendent Corey Testifies Before the Armor Plate Investigation.

WASHINGTON, June 28.—Superintendent Corey, of the armor plate shops, and immediately superior to Superintendent Cline, was before the congressional investigating committee to-day. He admitted that he had known of reports being falsified by Cline. The tests of armor plate had not in all cases been in conformity to the government requirements. By running the test machine very fast a tonnage strength 3,000 to 4,000 pounds greater than the actual strength was indicated. This Corey called jockeying the tests. Plates had also been subjected to re-treatment after having been accepted. The effect of this, Corey said, was uncertain. It might be beneficial, or the reverse. The general superintendent knew of the jockeying.

Suggestion for Criminal Judge.

To the Editor of the Intelligencer.

Sir:—Would you kindly permit me to suggest to the Republican county convention the name of T. M. Garvin for the office of criminal judge. He is a native of the county, and all those who have known him all his life know him to be honest and conscientious in all his acts. He possesses all the qualifications requisite to acceptably discharge the duties of that office, as he is thoroughly drilled in his profession, having studied for two years under two eminent lawyers of Ohio, and passed a five days' examination of a special committee of lawyers appointed by the supreme court of Ohio, acceptably to the supreme court, which admitted him to practice in all the courts of record in that state; took a course at the law school of the Cincinnati college, from which institution he graduated, receiving the degree of LL. B.; was admitted to practice before the supreme court of the United States at Washington city, and by strict attention to business has worked up a lucrative practice in this county. He is too well known to require a further introduction.

On the 20th of May, while in Des Moines, on route to Chicago, he was suddenly taken with an attack of diarrhoea. Having sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for the past seventeen years, and knowing its reliability, he procured a 25 cent bottle, two doses of which completely cured him. The excitement and change of water and diet incident to traveling often produce a diarrhoea. Every one should procure a bottle of this remedy before leaving home.

Protection for America.

American Economist.
 Young men of America, hope of our nation. There's something gone wrong with this land that we love. We exult around us a mighty stagnation. No longer the wheels in our factories move.

What forces are changing our country's condition? Young men of America, will you pause. As you see the first ray of a pestilence. To note the effect, and determine the cause.

From the days of your boyhood, perchance you have wondered. Why over the tariff, debate wakes warm? Some hold that protection the country has plundered. Who others are fearful of "tariff reform."

Young men, see our country, grown thrifty and strong. Since the war for the Union was fought, the hum of her factories might in song. Over the blessings protection had wrought.

But now, the first time, a menace appears. Be change the government made. And already our people are harassed by fears. That "reform" after all, means free trade.

Young men, take a warning! Shun that which invites. Pleasure. Stand firm for defense. Of all rights framed for American rights. And founded on good common sense.

"It has cured others and will cure you" is true only of Ayer's Sarsaparilla. The motto suits the medicine and the medicine the motto. What better assurance could you have that a remedy will cure you than the fact that it has cured such multitudes of others?
